Smart Response™ Technology

Get Better Sleep Tonight
with a Genius Sleep System!

Participants in a sleep study at Temple University School of Medicine were able to:

- Fall Asleep Faster
- Spend Less Time Lying Awake
- Experience Increased REM Sleep

These were the average results experienced by 20 participants as measured comparing their sleep quality on a ComforPedic IQ™ sleep system versus their relatively new current mattress.

DR. WEIL
Recommends

The ComforPedic IQ™ is the first and only mattress I have ever endorsed, because I believe the Smart Response technology provides a practical and effective sleep solution. - Dr. Andrew Weil

Andrew Weil, M.D., donates all of his after-tax profits from royalties from sales of ComforPedic IQ directly to the Weil Foundation, a not-for-profit organization dedicated to supporting integrative medicine through training, education and research.
